

Aged care

If you are over the age of 65 years and you need support services to maintain your independence and stay in your home longer, call My Aged Care to register your name on phone 1800 200 422 and ask them for Home Support Assessment.

Regional Assessment Service Team will call you and make appointment to see you at your home. Assessment staff work with you to identify and access appropriate supports you need to promote and enhance your independence at home and your community. At assessment process they will let you know for which type of government-funded aged care you are eligible. These are:

- Short-term restorative care. Short term care services in the home or residential care settings for situations such as restorative care (return to independence)
- Entry-level support at home. Ongoing or short-term care and support services through the Commonwealth Home Support Programme including help with housework, personal care, meals and food preparation, transport, shopping, allied health, social support and planned respite (giving your carer a break).
- More complex support at home. Four levels of consumer directed coordinated packages of services through the Home Care Packages Program including personal care, support services and nursing, allied health and clinical services.
- Residential aged care. Personal and nursing care in aged care homes for older people unable to live independently in their own homes. This also includes residential respite for short stay in an aged care home.

Assessment staff will work with you to develop a support plan. The support plan will help you identify your strengths, your areas of difficulty, and what you would like to achieve. The plan will enable you and the assessor to identify the types of support that will best suit you to achieve your desired outcome. This assistance may be provided by services, or may be support that's already available in your community.

Your support plan will be sent to you following your assessment. If you have any questions or concerns with details in your support plan please contact your assessor.

If required and with your permission, your assessor will make referrals on your behalf to service providers as discussed at you assessment. Your support plan contains the contact details of the service providers where referrals have been sent. The service provider will contact you to discuss the commencement of your service. They may come to visit you in your home to discuss your service. You may wish to contact the service provider directly on the number provided in your support plan.

After your Home Support Assessment you may be referred to a service provider to provide you with assistance. If you require any changes to this service call the service provider directly.

If your health or situation changes significantly you may need a review or a new assessment with the My Aged Care Regional Assessment Service. To organize a review or new assessment you can call My Aged Care on 1800 200 422 or the Regional Assessment Service who completed your assessment.

As an aged care consumer, you have access to the My Aged Care Client portal available through the myGov website.
